The **THENDARA** Series

Bench with back
Bench is covered by patent no. des. 466,318.

Relaxed Adirondack styling defines the simplistic yet refined look of the Thendara bench. The angled back combined with a slight slope of the seat presents comfort seating, while the throwback leg is reminiscent of lazy days by the lake.

- Coordinating litter receptacles, ash urns, planters, tables and other furnishings
- Exclusive KEYSHEILD® polyester powder coating finish—our stamp of armored excellence that is foremost in the industry
- Fully assembled unit

**Standard Features**
- Color: standard KEYSHEILD® powder coat
- Support: bolt down or freestanding

**Custom Options**
- Color: custom KEYSHEILD® powder coat
- Custom length
- Support: bury extension

**Enhancements**
- Pillows
- Cast bronze plaques
- Custom laser cut plaques

Inspired by organic forms, the Bike Garden provides a truly unique solution to the increasing challenges of bike parking and security. Its "stems" can be arranged in a wide variety of configurations to creatively accommodate almost any setting and provide riders with the added assurance of multiple locking points to secure the frame and wheels. Constructed entirely of rugged, corrosion-resistant stainless steel, Bike Garden’s stems can be surface mounted or cast-in-place and may be purchased individually for maximum arrangement flexibility or in pre-configured layouts.

### MATERIALS & FINISHES

**MATERIALS**
- Constructed entirely of corrosion-resistant stainless steel.
- Head and optional surface mount foot are cast stainless steel; body is stainless steel tubing.

**FINISH**
- Available in stainless steel with a radial Satin finish or powdercoated.
- Standard powdercoat colors are Aluminum Texture and Slate Texture; optional colors from the F+5 color chart and custom RAL colors are available for an upcharge.
- Due to the inherent nature of metal castings, gloss powdercoats are not offered for cast components.

### GUIDELINES & SECURITY

- Configurations A, B, and C of the Bike Garden Bike Rack meet Association of Pedestrian and Bicycle Professionals (APBP) recommendations.
- Locking point details and mounting configurations that meet APBP standards can be found on pages 2 and 3 of this document.

### INSTALLATION & MAINTENANCE

- Bike Garden can be cast-in-place or surface mounted. Anchors and stainless steel screws are included for surface mount.
- Metal surfaces can be cleaned as needed using a soft cloth or brush with warm water and a mild detergent. Avoid abrasive cleaners.

**LOCKING POINT EXAMPLES AND CONFIGURATION OPTIONS**

The Bike Garden Bike Rack was designed to allow for a multitude of locking point and configuration options to meet your individual needs. Please note that for optimal performance, Forms+Surfaces recommends a 36" center-to-center placement. See diagrams below, technical drawings, and the separate installation instructions document for more details.

A standard U-lock can be locked at this location to meet APBP Guidelines for security and functionality.
